INDOOR RED LED DESCRIPTION:

Numeric 8.0 inch digit height up to 4 OR 6 digit width (depending on model ordered). RED discrete seven segment LED rated 100,000 Hr life span. Single sided viewing.

POWER DRAW DESCRIPTION:

The marquee requires 120VAC power at 60Hz (50Hz acceptable). The units power draw is 120VAC @ less than 1 amp.

N12 ENCLOSURE DESCRIPTION:

The enclosure is NEMA 12 painted steel with dust gasket, 43.75" (6 digit) or 30.00 (4 digit) wide by 18.00" tall by 5.00" deep. The marquee is designed to be hung using the eye bolts on the top of the unit. No power or data cabling provided.

NEMA12 INSTALL DISCLAIMER:

Electrical terminations are provided within the enclosure requiring the customer to punch holes in the 14 gauge steel housing and run conduit/wire into the enclosure. Electrical terminations within the enclosure are screw terminals.

OPERATION DESCRIPTION:

The Trimline Series Timers support up timing in either HH:MM:SS, MM:SS or HH:MM formats. No preset time down capability (for time down see metronome series TL-2481-906). Unit also includes built-in memory backup of last value during power loss up to one week.
