- Order Status or Stage
- Department Call Light
- Team Leader Assistance
- Stoppage or Line Alerts

Indoor LED Tower Lights are designed for light signaling in order to display the status of a variety of processes. They give personnel instantaneous visual indication on the factory or warehouse floor at a glance.

These assemblies use LED technology for long life span. Steady versions are not flashing capable. Flashing versions are wired for all lights flashing state with customer capability to re-wire for steady if desired.
